WHEAT ROSE 2 CENTS

THE CLOSE YESTERDAY WAS THE HIGHEST THUS FAR THIS SEASON,

Heavy Slump at the Start Entirely Overcome Later and the Shorts Scrambled to Cover.

CHICAGO, June 8.-Wheat turned from quite weak early in the session to-day to very strong at the close on further crop damage reports. After declining le per bu under its highest value, made in the first half hour, it rose 2c and closed half-cent rise since the close yesterday, and is the highest closing price so far this kets sympathized with the strength in wheat. Oats are 1c higher, while corn only gained 4c, and pork, lard and ribs are but moderately advanced.

Although the first sales of wheat are at

from 1/3c to 1/3c per bu over the price at the close yesterday, the opening was comparatively tame. There were no new features in the surroundings of the market. The weather was still dry in the winter wheat area and wet in the spring wheat region. The chief items of early news comprised the publication of the State crop reports of Michigan and Illinois and the particulars of the weeks movement. The Michithe value at which they were originally Fine, 61/2c; Indian Head, 51/2c; Lawrence LL, gan report gave average condition for the marketed. The market acted rather heavy for an hour or more. Pardridge took a hand in the market and around 80% for July he began to feed the bulls with short wheat. The price gradually, but surely, declined to 801/4c, and, after hanging between that and 801/2c for a time, it siid off to 79%c. The decline was helped by advices from St. Louis of the arrival there of a carload of new wheat from Kansas and other telegrams referring to threshing returns from the same State, which mentioned twelve bushels per acre from a field of four hundred acres. But there was an excellent inquiry for cash wheat, 100,000 bushels being taken to go to Toledo. Some carloads were sold for Pittsburg also and other places which seldom buy direct from Chicago. came rumors of hot winds in California having damaged crops there from 15 to 20 per cent., the Modern Miller's estimate of not over 60 per cent. of an average crop of winter wheat and last, and most unkindly cut of all, chinch bugs in the spring wheat. It was a mere rumor, but it created a commotion in the minds of the traders, while the price was en route for 81%c for July, which it reached and

where it closed. The corn market had no independent action of its own. It declined when wheat was weak and advanced when it regained strength. The crop prospects were good as ever, but the receipts are giving no signs of increasing. The inspection in store today was 228 cars and the outward inspection was 238,000 bushels. July opened at from 52%c to 52%c; advanced to 52%c, reacted to 52@52%c, then once more advanced until it reached 531%c, the closing price being 52%c, against 52%c yesterday.

For a Saturday, business in oats was very active. Further reports of crop damage, making the condition much more unfavorable than it has been, created some anxiety among shorts, and there was free buying by them. Trading was heavy and principally general. July started at from 30%c to 30%c, sold at 30% @30%c, advanced to 31% @ 31%c. Provisions were firmer and recovered the slight loss of the day before. Hog receipts were only 10,000, making the week's run

172,000, against 177,000 a year ago. The run for next week is not expected to exceed 145,-000. Compared with yesterday's closing prices pork is from 10c to 121/2c higher; lard, .021/2c higher and ribs up .05c. Estimates for Monday-Wheat, 40 cars: corn, 225 cars; oats, 200 cars; hogs, 20,000

Elsewhere. CHICAGO, June 8.-Cattle-In the ab sence of a fair supply very little trading was done to-day. Prices closed 10c per 100 lbs higher for good beeves than a week ago, but common lots closed 15@20c lower. The week's cattle receipts were 10,000 head less than last week and 12,000 less than for the corresponding week last year. For common to choice native dressed beef and shipping steers, weighing 900 to 1,600 pounds, prices range at \$3.60006, but very few are choice enough to bring \$5.80, and sales are largely at \$4.25@4.50. Far away Idaho is sending some 885@890-pound wheat and corn-fed steers here, and sales are made at \$3.25@ 3.85. Stockers and feeders are selling more freely at somewhat stronger prices, sales being mostly at \$2.45@3.95.
